Installation and User Guide

- If your DSLR camera is equipped with a camera cage, you can secure the camera more stably by aligning and tightening the two 1/4" camera screws on the conversion plate with the 1/4" thread on the camera cage.

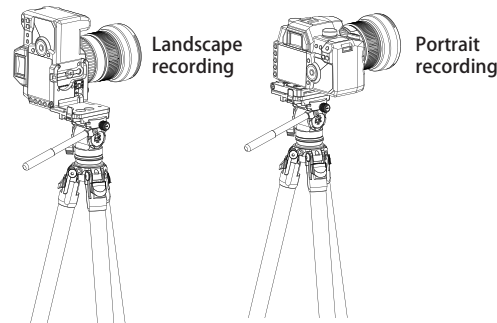

Installation and User Guide

- 50mm and 38mm mounts on base of the conversion plate. Attach the base of the camera securely to the screw on the conversion plate, then mount on a fluid head such as Komodo K3, K5, K5S, allowing for convenient assembly and disassembly.

Installation and User Guide

- Mounting the conversion plate to a fluid head, it is increased flexibility and camera angles and can quickly and easily switch between portrait and landscape recording-no disassembly required.

Maintenance

1. If there is sand or grit on or within the conversion plate, please gently remove with a soft, clean cloth.
2. After use in rain, snow or other wet conditions, please remove all moisture with a damp cloth allowing time for evaporation and drying prior to storage.
3. Handle all parts with care and avoid external pressure during storage.

*Please note: The tripod, fluid head, camera and camera cage are not included in the package and are used for illustrative purposes only.
