Round Base Monopod
User Manual

Thank you for purchasing this iFootage product. This manual provides important user information for the Round Base Monopod. Please read the manual carefully before operating the equipment and keep the manual safe for future reference.

FEATURES

- 1.This monopod is ideal for attaching and supporting a camera head, microphone, light, monitor or phone holder. Perfect for use with interior live streaming.
- 2.The base fits flush to the ground, has a small form factor and is both robust and stable. Ideal for use when space is limited and you wish to avoid any form of trip hazard.
- 3.The quick release top plate has both 1/4" & 3/8" screw threads and is compatible with the majority of cameras and camera heads.
- 4.Simple to connect and very versatile , the extension tube attaches quickly and easily to the round base and can also be connected to a low profile minipod.
- 5.Secure buckle locking system is quick and simple to use and ensures stability. Telescopic structure is strong, lightweight and highly portable.

COMPONENT DESCRIPTION

USER GUIDE AND MORE FUNCTIONS

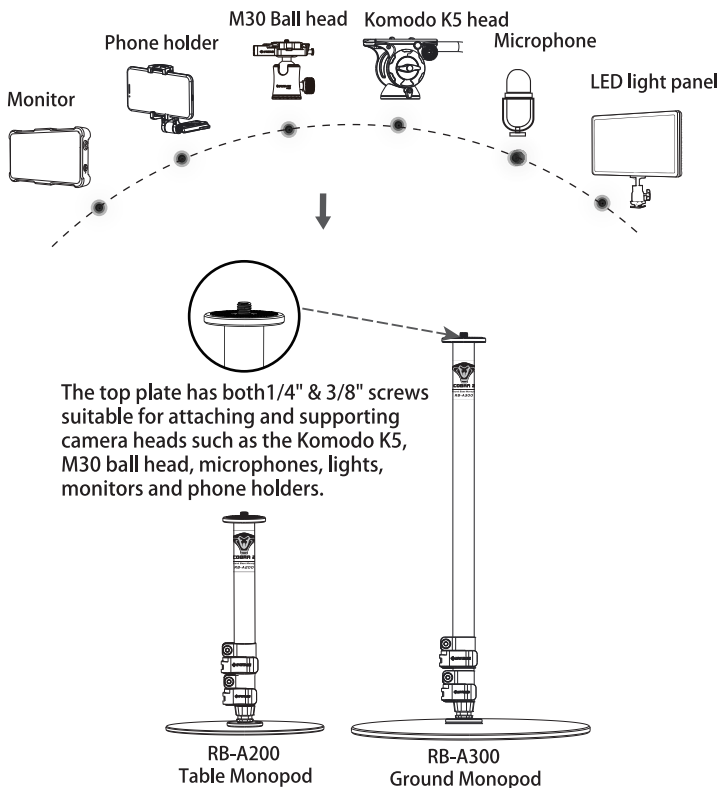

■ Using the telescopic function

Lift buckle to unlock and release telescopic section, adjust to desired height, then push buckle back in place to lock securely.

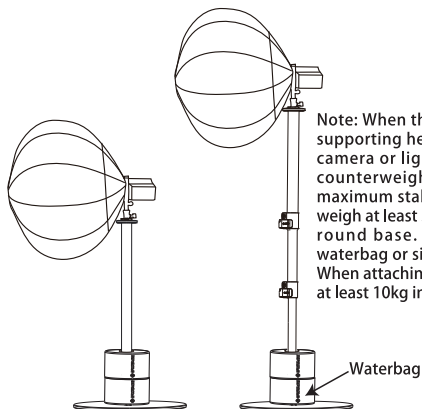

USER GUIDE AND MORE FUNCTIONS

■ Attaching equipment and accessories

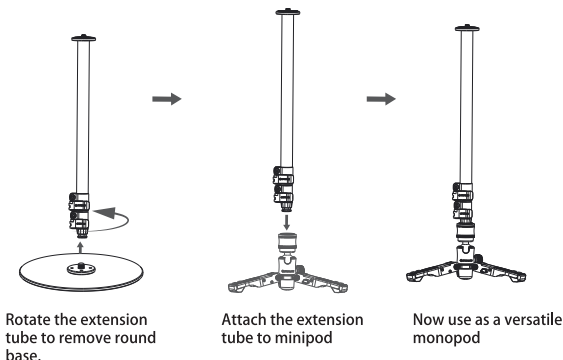

USER GUIDE AND MORE FUNCTIONS

■ Caution

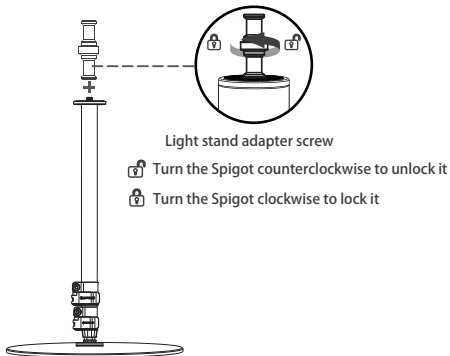

■ Switching to low profile minipod

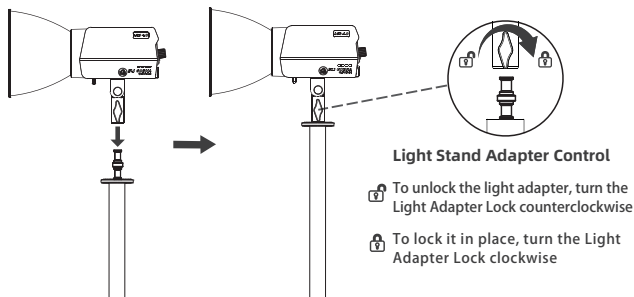

USER GUIDE AND MORE FUNCTIONS

■ Attach lights to Round Base Monopod

Step 1: Begin by attaching the 3/8" spigot to the 3/8" screw hole on the quick release plate located at the top of the round base monopod.

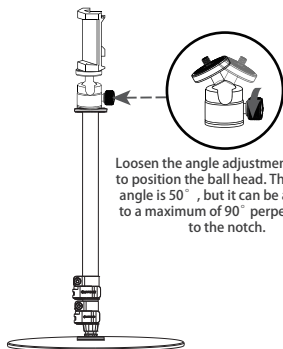

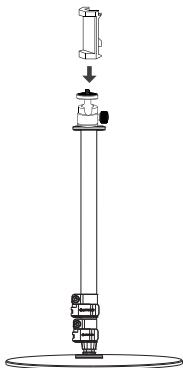

Step 2: Attach the Anglerfish light to the Mounting screw base on the Round Base Monopod, and then securely tighten the light stand adapter lock to ensure it is firmly in place.

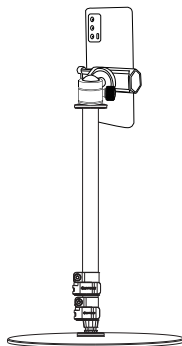

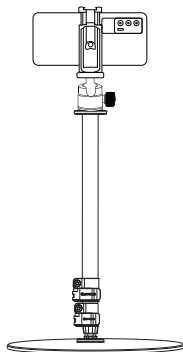

USER GUIDE AND MORE FUNCTIONS

■ Installation and Usage of ball head/Phone Holder

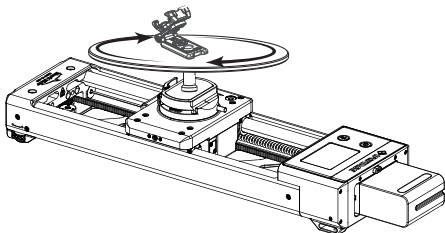

Loosen the angle adjustment control to position the ball head. The default angle is 50°, but it can be adjusted to a maximum of 90° perpendicular to the notch.

USER GUIDE AND MORE FUNCTIONS

- Attaching the Round Base on the Shark Slider Nano as a rotating product display table.

MAINTENANCE

1. Please check screws and joints prior to use. Do not over tighten or loosen these as this may damage the tube section parts.
2. After use in rain, snow or other wet conditions, clean with a damp cloth and allow the equipment to fully dry prior to storing.
3. Handle all parts with care and avoid external pressure during storage.
4. If sand or grit appear on or inside the tubes, please remove using a small brush. After cleaning, lubricant should only be used on parts which are not self-lubricating. Do not apply regular machine oil or other lubricant that may impair the function of the parts. Always use an appropriate professional lubricant.

*Please note that the low profile minipod, slider, phone, camera, lights, mic and monitor are not included in the package and are used for illustrative purposes only.

STATEMENT
