

iFootage Timberpod User Manual

Thank you for purchasing this iFootage product. This manual provides important user information for the Timberpod. Please read the manual carefully before operating the equipment and keep the manual safe for future reference.

FEATURES

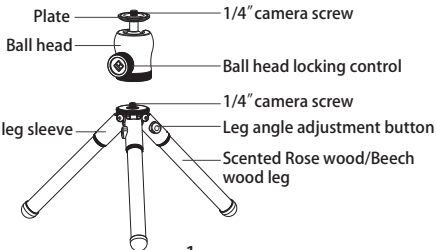

1. The Timberpod design carefully combines natural and man made materials resulting in a minipod that is aesthetically pleasing, warm to the touch and easy to use .
2. Constructed using high-grade, natural hardwood, the Timberpod introduces a pleasing combination of craftsmanship and practicality. It is also portable and simple to set up and use .
3. The Timberpod comes with a 1/4" camera screw and ball head allowing secure attachment to a camera or Smartphone for 360 degree recording, live streaming and vlogging .

LIST OF ITEMS

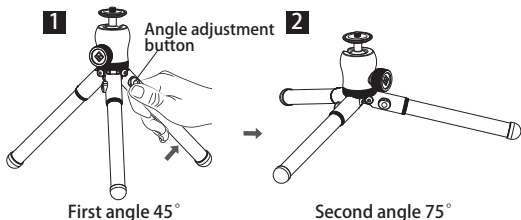

COMPONENT DESCRIPTION

Timberpod ball head

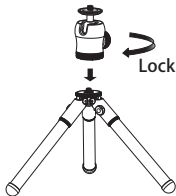

■ Leg angle fast adjustment

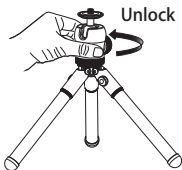

Each leg can be adjusted individually and set to one of two positions. Depress the angle adjustment button to position the leg at 75° - lowest setting or at 45° - highest setting .

■ How to install and remove the ball head

To attach the ball head, carefully locate onto screw thread and rotate clockwise.

To remove the ball head, rotate anti-clockwise.

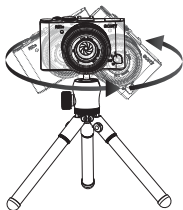

■ Camera installation and usage

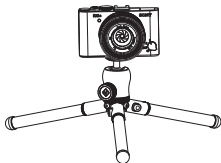

Rotate camera clockwise to attach to the Timberpod .

Turn ball head locking control anti-clockwise to loosen the ball head .

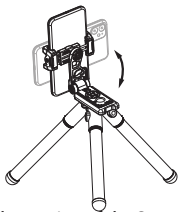

Loosen the locking control to adjust the angle and position of the camera. Rotate the locking control clockwise to tighten and lock the ball head .

Maximum stability is achieved with the legs set at 75° .

■ Smartphone holder installation and usage

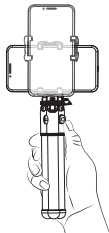

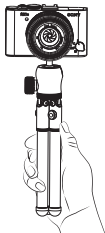

Flexible rotation of the Smartphone holder allows for both portrait and landscape set-up, recording and viewing .

Provides full 360° rotation .

■ Handheld recording

APPLICATION SCENARIO

■ Desktop usage

WS-OB Scented Rose Wood Oxidised Bronze

Weight	420g	Maximum payload	4kg
Tube diameter	15mm	Installation screw	1/4" camera screw
Drag Position	2 Gear	Minimum Height	120mm
Folded length	230mm	Maximum Height	180mm

WB-S Beech Wood Silver / WB-B Beech Wood Black

Weight	210g	Maximum payload	4kg
Tube diameter	15mm	Installation screw	1/4" camera screw
Drag Position	2 Gear	Minimum Height	120mm
Folded length	230mm	Maximum Height	180mm

MAINTENANCE

1. Liquid or dust can be removed from the ball head using a clean, dry cloth. Do not use detergent or water. Please do not use alcohol or thinners on the wood leg sections as these will damage the surface treatment materials.
2. Please do not expose the Timberpod for long periods of time to strong light, air-conditioning vents, sources of heat or humidity or hot or cold environments as this may damage the natural wood and result in cracking, distortion, colour alteration and/or other impairments.
3. The surface of the wood is treated with a mineral coating which helps prevent fading and allows the wood to continue to breath naturally so that its inherent moisture content is regulated. The coating is both environmentally friendly and non-toxic.
4. Handle all parts with care and avoid external pressure during storage.

* Please note that the camera, Smartphone and Smartphone holder are not included in the package and are used for illustrative purposes only.

STATEMENT
